Pike Place Market Renovation: The first building at the Market, the Main Arcade, opened in 1907. A century later, Pike Place Market is internationally recognized as America's premier farmers' market and is home to nearly 200 year-round commercial businesses; 190 craftspeople and 120 farmers who rent table space by the day; 240 street performers and musicians; and 300 apartment units, most of which house low-income elderly people. "The Market," as the locals affectionately say, attracts 10 million visitors a year, making it one of Washington's most frequently visited destinations. Get a firsthand look at this historical renovation in progress!
