

Renton Technical College Celebrates The 40th Anniversary of Earth Day (2010)!

Seeds of Knowledge Challenge

Faculty and Students - we challenge you to share your green story: How has your industry or country of origin responded to the challenge of going green? What eco-friendly materials, standards, tools or procedures have been introduced in recent years? Across the spectrum, from Nursing, Automotive, Construction, Finance, Manufacturing, General Business and Information Technology to name a few, entire industries have responded to the challenge in a variety of ways.

How can you share that knowledge with others? Have your class write a short narrative, create a poster, flyer, slide deck or other educational tool to share your findings. Or you might choose to describe how your curriculum incorporates and reflects your industry's green practices.

Send your projects to greenteam@rtc.edu by March 31st so that we can showcase them during the month of April.

How Clean Is Your Water and What Can You Do About It?

*Earth Day Presentation
Thursday, April 22
8:30am and 1:30pm
@ Blencoe Auditorium*

Puget Sound and its surrounding waters are suffering. Is it still safe to swim? Eat the fish? What can ordinary citizens do to protect water quality? Chris Wilke from the non-profit group *Puget Soundkeeper Alliance* will discuss the marine life and natural resources in Puget Sound, how water quality is impacted and what we can all do to help protect this resource.

RTC's Adopt-A-Highway

Saturday April 17, 2010

Every spring and fall, Renton Technical College volunteers dedicate a Saturday morning to clean up a section of Maple Valley Highway 169 as part of Washington State's *Adopt a Highway* program. Join us this spring on Saturday April 17th. For more information or to volunteer, please contact Barry Baker, Director of Plant Operations
