

THE CONSTRUCTION INDUSTRY

WE Call Ourselves an Industry

**WE are Treated Like an
Industry**

ARE WE AN INDUSTRY??

Do WE Act Like an Industry?

\$360 Million 2004

**State Fund Industrial Insurance
Premiums for Construction**

\$306 Million Claims Benefits for Construction in State Fund in 2004

- Past 5 Years \$12 Million for Hearing Loss

Pay for Repairs VS Prevention

- Societal Consistency
- Always Looking for the Cure
- Seldom Looking for the Cause
- Finding Cause could lead to Prevention

The Real \$Money is in Prevention

- No real way to quantify Cost of injury or illness
 - What does it cost to train Replacements?
 - What does it cost to combat demoralization of co-workers?
 - What does it cost to replace co-workers who quit?
 - What does it cost when owners or General Contractors won't accept your bid?
 - What does it cost when competent workers refuse dispatch?
 - What does it cost when capable youth refuse to enter this Industry?

SOLUTIONS

- Concerted Effort by Industry to:
 - **Identify and correct problems that lead to waste and inefficiency in safety**

SOLUTIONS

- Concerted Effort by Industry to:
 - **Find common ground for minimum training and delivery of training**

SOLUTIONS

- Concerted Effort by Industry to:
 - **Track training and testing (respiratory, hearing, etc.) of a migratory work force to avoid redundancy and waste**

SOLUTIONS

- Concerted Effort by Industry to:
 - **Track training and testing of work force to better invest in the identified needs of the industry to reduce injuries and affect the bottom line.**
