King County Construction Career Day—October 6&7

Designed to inspire Western Washington high school students toward construction careers, Construction Career Day 2010 invites you to be an exhibitor!

As one of our country's largest industries, the construction trades are facing a shortage of skilled workers. If not addressed, this shortage will increase. It will affect quality, safety, and the industry's overall ability to compete in building the infrastructure needed by an ever-growing population.

This event addresses the need to educate young people about the tremendous opportunities available in the construction industry.

Where: Magnuson Park, Seattle

Dates: October 6 & 7

Time: 8 a.m.— 3 p.m.
