\*May not add up to 100% because students may be counted in more than one race. Percentages calculated on reported value.

**POINTS OF INTEREST**

**Students Succeed at RTC** Renton Technical College (RTC) meets students where they are and moves them forward to greater opportunity, illustrated by our completion rate of 66% and our job placement rate of 82%. Equity is at the core of our mission, and we are proud to serve a diverse population of students and work to remove barriers to success, especially during COVID-19. We offer hands-on training in a safe setting in our labs, while the remainder of courses are offered online through spring quarter 2021. The college provides technology, including computers, hotspots and other devices to ensure all students have access to programs and services.

**Preparing the Workforce** RTC prepares students for a changing workforce with programs such as Mechatronics, which integrates robotics, mechanical, electrical and computer science now used in a variety of industries. Our Registered Nurse and other short- and long-term health care programs ensure RTC helps meet growing health care needs while providing students opportunities in high-demand, high-wage careers. Partners include Swedish Medical Center, Valley Medical Center and Kaiser Permanente.

**A Variety of Paths** RTC is consistently ranked as one of the top two-year colleges in the country. In addition to certificate and associate degrees in career training programs, RTC offers Bachelor of Applied Science degrees in Network Architecture and Application Development, transferable credits and degrees, and Running Start. Many graduates transfer to universities, including two recent graduates who went on to study at Harvard and Columbia.
