STUDENT PHOTO GUIDE
Here are some helpful tips for your Graduation Photo

WHAT WE NEED

- The photo should be in one of these formats for upload: JPEG, PNG, or GIF
- The photo should be at least 800 pixels wide and no bigger than 2MB
- Choose or take a photo with just you in it
- Choose or take a photo that is the most recent of you

OTHER HELPFUL TIPS

Choose or take a photo in a well lit area that does not have a lot of clutter in the background. Remember, the focus is on you!

Selfies are okay, but if you can, have someone take a photo of you.

Keep it simple, and keep it light! This is in celebration of you!
